ALEX RIVERA

St. Louis, MO | alex.rivera@example.com | Portfolio: alexrivera.example

PROFILE

Fictional student developer interested in accessible web experiences, front-end development, and digital brand strategy. Enjoys turning research and user needs into clear, useful interfaces and communicating ideas across technical and creative teams.

EDUCATION

Riverbend University — St. Louis, MO

B.S. in Information Technology | Expected May 2027

Relevant coursework: Web Technologies, Human-Computer Interaction, Data Structures, Digital Marketing

PROJECTS

Network Monitor Dashboard | JavaScript, HTTP, CSS

- Built a dashboard concept for comparing request timing and organizing network measurements.
- Designed clear labels and grouped data to make latency patterns easier to understand.

React Portfolio Website | React, React Router, Vite

- Developed a multi-page portfolio using reusable components and route-based project detail pages.
- Added a controlled project filter, empty-state messaging, and responsive styling.

Digital Marketing Campaign Concept | Audience Research, Content Strategy

- Created a sample campaign plan based on target-audience segmentation and brand goals.
- Connected audience insights to messaging and channel recommendations.

EXPERIENCE

Student Technology Assistant — Riverbend University | Aug 2025–Present

- Help students troubleshoot common software and account-access questions.
- Document recurring issues and explain technical steps in accessible language.

Marketing Project Volunteer — Campus Engagement Office | Jan 2025–May 2025

- Helped prepare promotional materials for student events and reviewed copy for consistency.
- Coordinated task updates with a small team and supported event-day logistics.

SKILLS

Technical: HTML, CSS, JavaScript, React, React Router, Git/GitHub, responsive design
Marketing: Audience segmentation, brand messaging, content planning, research
Professional: Communication, teamwork, problem-solving, documentation

Sample résumé for a fictional portfolio character. All names, organizations, contact details, and experience are invented.
